

BEAUMONT BOWLING CLUB

PENNANT SELECTION POLICY

Dated 10 MARCH 2022

Pennant Selection Panel

Nominations and expressions of interest for the position of Chair of Selectors and Selectors will be called for no later than 30th June each year.

The appointment of Chair of Selectors shall be approved by the Board of Management from the nominations received.

The Selection Panel for the respective pennant sides will be suggested by the Chair of Selectors for submission to & approval by the Board of Management from the nominations received.

It is preferable that selectors appointed to a particular side play in that side, however that may not always be possible.

Selection Panels shall consist of:

- Wednesday men's – up to a maximum of two selectors for each side
- Thursday women's – up to a maximum of two selectors for each side
- Saturday mixed gender – up to a maximum of two selectors for each side

While recognising there is obvious merit in having continuity of experience in the selection committee, selectors will be appointed for one season at a time. There shall be no limit to the number of terms a Selector may serve.

The Board shall appoint a replacement Selector for a side if a Selector:

- Resigns; or
- Fails to attend two (2) consecutive Selection Meetings without reasonable cause.

The Selection Panel may resolve any matter relating to the Club's pennant teams not covered by these rules and, in an emergency, when it is impracticable for the Panel to meet, the Chair shall be empowered to act alone.

Eligibility for pennant selection

To be eligible for selection, players must be financial full members of Beaumont Bowling Club Inc. and be registered with Bowls SA. In the event that there are insufficient players to fill the required pennant sides, selectors will be able to select other non-pennant playing members, or Night Owls members to complete pennant sides. Such players will not be selected in priority to financial full members.

Selection on Merit policy

Selection will be made on a fair and equitable basis, regardless of gender where appropriate and based on current form, player performance and ability, and compatibility with other team members.

Selection criteria and the process of selection must be transparent and accountable to members.

Players who have personal preferences and thereby limit who they will or won't play with, or in what position (except for medical reasons), or will only play in a certain side will probably adversely affect their own selection outcome.

Selection procedure

The Selectors will select players through coaching trials, observation at club games and outcomes of regular discussions with skippers and other players.

The Selectors may use a range of methods to obtain feedback on player performance.

Criteria to be considered by the selectors may include the following in no particular order:

- Bowling skills for a specific position
- Regular attendance at training
- Commitment/availability to play each week
- Potential to be socially compatible and display a sense of 'team spirit' within the team
- Team balance
- Demonstrated positive attitude to becoming an excellent bowler
- Player development
- Receptiveness to coaching
- Strong desire and commitment to working hard at improving skills
- Fitness level relative to the level of bowls played
- Performance and results at club championships, intra club events, State events and the like
- Performance at pre-season trial games both at home & away

Note that past performance (or team position) is not a guarantee of continued selection at that level.

Duties of Selection Panels

The Selectors will be responsible for the selection and management of the Club's representative sides in all pennant competitions.

Any Selector may provide an opinion or advice relating to a side for which that Selector is not a selector, as may the Chair of Selectors. It is considered that open discussion among members of the Selection Panel is a good thing. However, the final selection of a side is the sole responsibility of the selectors for that side, without any intrusion from persons who are not selectors for that side.

Selectors must consult with skippers on a regular basis regarding their team's performance and, if necessary, consult other team members and/or coaches.

The Chair of Selectors will have the right to exercise a deciding vote when agreement cannot be reached by the selectors for a side.

Sides will be selected in order, with the teams for the highest side first, choosing players on merit, followed by the second side, and continue in that order.

Side selectors are responsible for ensuring the electronic selection spread sheet is updated after each selection and for making changes to the spread sheet should there be changes to selections after the selection meeting.

The names of players selected for each side will be posted on the TV screen in the lounge area as will the names of the reserves for each side. Teams will be simultaneously released on the Club's web site.

Selectors for their nominated sides must at the earliest opportunity make contact and advise players in their side if they have been promoted or demoted and explain the reason for the movement. This contact is to be made prior to the release of teams.

The Selection Panel is responsible for appointing players to carry out duties on the day of play, particularly the umpires/measurers of the day, the side Managers and the duty rink.

Duties of Side Managers

Side Manager duties include:

- Preparing cards for pennants
- Working with opposition Division managers on various administrative duties such as selecting rinks, deciding on who wins the mat and completing cards
- Being familiar with the MBA Conditions of Play
- Entering teams and results into Bowls Link (home games only)

Filling vacancies

The filling of vacancies occurring in a side during the period between selection and prior to the commencement of play on the day of play will, after consultation with the selectors for that side be determined by the Chair of Selectors or his/her substitute, from the relevant reserves nominated at selection. Players affected by this movement will be notified as soon as possible.

If possible, players will be given 3 weeks in a side prior to any movement to another side.

Players promoted to a side to fill a casual vacancy (where an existing member of the side is temporarily unavailable) will be informed that the promotion is likely for one game only.

If a player is unable to play, they may not be automatically re-selected in their current position and side. The player who takes their position may retain that position if warranted by performance.

Players should post any known unavailability dates on the relevant form, preferably before the season starts, or as soon as this unavailability is known.

If more players are available for a particular competition than required, some may be asked to rotate in order to give all members the opportunity to play during the season. The Selectors will determine how the rotation will occur.

Communications

Selectors need to continually communicate with players. Players need to continually communicate with skippers and selectors.

Any player, who believes that they have not been considered for selection based on merit or considers that they have been treated unfairly within a side, may approach the selectors for that side. If the player still believes that they have not been considered on merit or treated fairly, they have the right to refer the matter to the Chair of Selectors. If there is no resolution satisfactory to the member, they may then approach the Board of Management.

Members, if dissatisfied with an appointed selector, may bring that matter firstly to the attention of the Chair of Selectors and then, if still dissatisfied with his/her response, to the Board of Management for consideration by the Board. This may occur at any time during a season.

Any decision by the Board of Management is final.

Misdemeanors

Should any player be considered guilty of a breach of the Club rules relating to conduct or lack of good sportsmanship, or any misdemeanor whatsoever, the matter must be reported to the Side Manager (and Chair of Selectors, if present) for immediate action. The matter may then be reported to the Board of Management for any further action.
